## WHY HOSPICE CARE IN A NURSING HOME?

When residents of a nursing facility are nearing the end of their lives, they often require more care and support.

Hudson Valley Hospice is here to help you make informed decisions and support you and your family through the process.

Hudson Valley Hospice care complements the care already being provided by the facility. We provide expertise in pain and symptom management and emotional and spiritual support that extends to the entire family.

You or your loved one can live in comfort and dignity, while remaining in the safe and caring environment of the nursing facility that is home.

## WHAT DO WE OFFER?

Hudson Valley Hospice partners with your nursing home and works with the attending physician to provide:

- Pain and symptom management.
- Treatment and services that address comfort and quality of life.
- Access to all of Hudson Valley Hospice's services, including nurses, home health aides, social workers, volunteers, chaplains, music therapists and a host of complementary therapies.
- Grief education, support, and counseling.

Our plan of care reflects our philosophy and mission. We are dedicated to helping individuals who are near the end of life maintain their dignity and enhance the quality of their life.

For immediate patient care assistance, please call **845.240.7510**.

## NEXT STEPS

Referrals for hospice care can come from you, your loved ones, your physician or your nursing home staff.

Studies show that patients who are referred to hospice care as early as possible experience a far superior quality of life, with fewer hospitalizations and a decrease in symptoms.

Hospice care in nursing homes is covered by Medicare, Medicaid and most insurance plans. Financial assistance may also be available.

*We are here to help!* Please call us at **845.240.7555** for more information.
